rather than a bit part. Interesting contrast between Zak and Tyler. Zak being perceived as not capable of deciding for himself and virtually kept a prisoner despite his dreams . Tyler is free to make all sorts of disastrous choices. The developing relationship between the 2 men worked well.

- We enjoyed the film and as we didn't know what to expect it was a pleasant surprise. Guess it does fall into the feelgood category!
- Very much enjoyed 'The Peanut Butter Falcon'. Difficult to follow dialogue at times but story easy enough to follow in spite of this. Great to see a young man with a disability succeed in following a dream. Hope it can happen in the real world.
- Brilliant film! Thank you for showing it!
- A bit sentimental but very enjoyable with good performances from the three principals. Hope Zack gets some more roles.
- I enjoyed the film although couldn't catch all the dialogue. It was a bit simplistic as far as realism goes. Zach coped very well without shoes, his feet didn't even bleed, without regular meals or his medication, he didn't get sunburn either ! However the relationships built well, it was a good story with interesting characters and Zach was delightful. I would watch it again.

- Fascinating to see a disadvantaged person playing themselves. The 3 main characters were well-drawn and acted; but it seemed a trifle twee at times. And why do films set in the southern states of the USA have to be violent - very sad if this still reflects the true nature of the citizens. Scenery was great;. Difficult to hear/understand the speech sometimes.
- I thought the film an interesting experiment with some good moments.
- OK but a bit of a tall story!
